### FOR IMMEDIATE RELEASE:

#### **Montgomery County Reports 295 New COVID-19 Cases and Two Deaths Over Seven Days *A Total Number of 10,605 Cases and 826 Deaths Were Reported***

**Norristown, PA (August 25, 2020)** – Montgomery County officials and the Office of Public Health (OPH) today reported COVID-19 test results and deaths for the seven day period from August 19 to August 25, 2020. Two hundred ninety-five (August 19: 40, August 20: 42, August 21: 38, August 22: 58, August 23: 40, August 24: 41, August 25: 36) additional individuals tested positive for coronavirus, and two individuals died of COVID-19, bringing the countywide total to 10,605 cases and 826 deaths. Five of the new cases are in long-term care facilities. None of the reported positive COVID-19 cases resulted from antibody testing.

“Montgomery County’s 14-day positivity rate has been under 5% since June 18 and continues to trend slowly downward. This is great news but not a reason to let up on masking, social distancing, hand hygiene, testing, and contact tracing,” said Dr. Valerie A. Arkoosh, Chair, Montgomery County Board of Commissioners. “Our low positivity rate is a result of so many Montco residents heeding the call to do the right thing to protect our entire community. Keep your good work and your mask up!”

Each of the two individuals who died of COVID-19 resided in a long-term care facility.

The 295 positive individuals are from 48 municipalities. Sixty-two municipalities have been affected. A breakdown of today’s reported cases follows:

Age Range: 1 - 98
